

**American Short Line and
Regional Railroad Association**

The Voice of America's Independent Railroads

Congratulations!

We are pleased to announce that Central California Traction company has won an ASLRRRA Jake Award. To qualify for this prestigious award, an ASLRRRA member railroad must have a yearly FSI rate better than the industry average. Your success in promoting safety serves as a model toward which all railroads must strive in order to achieve our goals of promoting the rail industry as the safest means of transportation.

We thank you for your tremendous efforts in creating a high standard of safety towards which the railroad industry is striving.

Sincerely,

Thomas E. Streicher
